Summary

Passionate and dedicated 2 year Master of Data science student with a keen interest in Machine Learning and Data Analytics. I am driven by the potential of leveraging data to extract valuable insights and make informed decisions. Throughout my academic journey, I have gained a solid foundation in computer science principles and programming language such as Python. I have also completed coursework focused on algorithms, data structures, and machine learning.

I am open to internship opportunities, research collaborations, and industry networking. Feel free to reach out to discuss how we can work together to leverage data for meaningful insights and positive outcomes. Let's connect and explore the exciting possibilities at the intersection of Computer Science, Machine Learning, and Data Analytics!

Education

Symbiosis Institute of Geoinformatics

Master of data science , Python programming

Jun 2023 - Jun 2025

Patna University

Bachelor of Science - BS, Statistics

2020 - 2023

Army Public School (APS)

Intermediate , PCM

Apr 2018 - May 2019

Army Public School (APS)

Matriculation , Hindi, English, Mathematics, Science, Social science

Apr 2016 - Jun 2017

Licenses & Certifications

Introduction to Programming Using Python - GUVI Geek Networks, IITM Research

Park

5698090732186U80he

Skills

Problem Solving • Machine Learning • Data Analysis • Python (Programming Language) • Analytical Skills

Honors & Awards

CRICKET ANALYSIS - MAD ABOUT SPORTS

Sep 2022

completed a workshop in cricket analysis

athlete - PATNA SCIENCE COLLEGE

Mar 2022

I'm overjoyed to have placed second in the race at the yearly sports day event
